We are pleased to inform you that the above-referenced product was listed as eligible for WHO procurement on **17 March 2021**. The EUL listing can be leveraged by other international, regional and national procurement agencies. The product will be eligible for procurement for 1 year, unless circumstances dictate otherwise.

Please be advised that the on-going eligibility status of the above-referenced product depends on fulfilling the commitments to EUL listing identified in the “Dossier review complete” letter sent **17 March 2021**.

The following activities are required to maintain the eligibility status:
